CONTENTS OF VOLUME 103

Vol. 103*A*, *No.* 1

Mini Reviews

N. C. Bols, D. D. Mosser and G. B. Steels 1 Temperature studies and recent advances with fish cells *in vitro*

Jenny Kien and Jennifer S. Altman 15 Preparation and execution of movement: parallels between insect and mammalian motor systems

D. A. Hogg and A. Hosseini 25 The effects of paralysis on skeletal development in the chick embryo

Francisco C. Herrera 29 The partial double Donnan—a simple alternative interpretation of the transmembrane ionic distribution

M. A. Packham, M. L. Rand and R. L. Kinlough-Rathbone 35 Similarities and differences between rabbit and human platelet characteristics and functions

General Papers

Shin'ichi Shoji 55 Effects of arterial insufficiency on glucose uptake by fast and slow rat skeletal muscles

P. F. Silveira, L. N. Schiripa, E. Carmona and Z. P. Picarelli 59 Circulating vasotocin in the snake *Bothrops jararaca*

B. Giordana, P. Belgiojoso, G. M. Hanozet, M. Tasca and P. Parenti 65 Efficiency of amino acid transport into preserved brush border membrane vesicles from lepidopteran larval midgut

Albert S. van Jaarsveld and John D. Skinner 73 Adrenocorticol responsiveness to immobilization stress in spotted hyenas (*Crocuta crocuta*)

Ken-ichi Yamamoto 81 Relationship of respiration to body weight in the tilapia *Oreochromis niloticus* under resting and normoxic conditions

László Hernádi 85 Relationships between the distribution of serotonergic cell bodies and the running of vascular elements in the central nervous system of the snail, *Helix pomatia*

Sonia Maria Brazil Romero and Anette Hoffmann 93 Role of the visceral nerve in heart rate variations during different behavioral patterns in *Megalobulimus sanctipauli* (Mollusca, Gastropoda, Pulmonata)

Osamu Sata, Yukio Okada, Takenori Miyamoto and Toshihide Sato 99 Dye-coupling among frog (*Rana catesbeiana*) taste disk cells

Alexander Kaiser 105 The ontogeny of homeothermic regulation in post-hatching chicks: its influence on the development of hearing

Hava Golan and Yoram Grossman 113 Synaptic transmission at high pressure: effects of $[Ca^{2+}]_o$

Małgorzata Muszyńska-Pytel, Maciej A. Pszczółkowski, Piotr Mikołajczyk and Bronisław Cymborowski 119 Strain-specificity of *Galleria mellonella* larvae to juvenilizing treatments

Dinh-Yen Tran, Karin vS. Hoff and Stanley D. Hillyard 127 Effects of angiotensin II and bladder condition on hydration behavior and water uptake in the toad, *Bufo woodhousei*

V. M. Darras, T. J. Visser, L. R. Berghman and E. R. Kühn 131 Ontogeny of type I and type III deiodinase activities in embryonic and posthatch chicks: relationship with changes in plasma triiodothyronine and growth hormone levels

Roderich Werner 137 Sympathoadrenal activity during helox–cold induced hypothermia in Syrian hamsters

Leigh C. Anderson, John R. Garrett, Ahmed H. Suleiman and Ka-Ming Chan 145 Secretory oedema in diabetic submandibular glands during parasympathetic nerve stimulation: relationship to microvascular abnormalities in streptozotocin-treated rats

I. Kakuta and T. Nakai 151 Blood changes in Japanese eels, *Anguilla japonica*, experimentally infected with typical or atypical *Aeromonas salmonicida*

R. M. G. Wells, J. Baldwin and J. M. Ryder 157 Respiratory function and nucleotide composition of erythrocytes from tropical elasmobranchs

Jennifer C. Sneddon, J. Van der Walt and G. Mitchell 163 Effects of dehydration and rehydration on the intravascular space in horses

COMPARATIVE NUTRITION PAPERS

Mini Review

M. P. Vinardell 169 Age influences on amino acid intestinal transport

General Papers

Hein H. Du Preez, Houng-Yung Chen and Chieh-Shih Hsieh 173 Apparent specific dynamic action of food in the grass shrimp, *Penaeus monodon* Fabricius

J. E. McFarlane 179 Can ascorbic acid or β-carotene substitute for vitamin E in spermiogenesis in the house cricket (*Acheta domesticus*)?

David R. Hewitt 183 Response of protein turnover in the brown tiger prawn *Penaeus esculentus* to variation in dietary protein content

Klavs Holtug, Henrik Sandvad Rasmussen and Per Brøbech Mortensen 189 An *in vitro* study of short-chain fatty acid concentrations, production and absorption in pig (*Sus scrofa*) colon

Søren Wamberg, Carsten Riis Olesen and Hans Otto Hansen 199 Influence of dietary sources of fat on lipid synthesis in mink (*Mustela vison*) mammary tissue

Reino R. Linko, Marjut Rajasilta and Raimo Hiltunen 205 Comparison of lipid and fatty acid composition in vendace (*Coregonus albula* L.) and available plankton feed

Paul B. Brown and Edwin H. Robinson 213 Vitamin D studies with channel catfish (*Ictalurus punctatus*) reared in calcium-free water

Hai-Ou Li and Juro Yamada 221 Changes of the fatty acid composition in smolts of masu salmon (*Oncorhynchus masou*), associated with desmoltification and sea-water transfer

Vol. 103*A*, *No.* 2

Mini Reviews

Alan H. D. Watson 227 Presynaptic modulation of sensory afferents in the invertebrate and vertebrate nervous system

Elwood S. McCluskey 241 Periodicity and diversity in ant mating flights

F. Bretschneider and R. C. Peters 245 Transduction and transmission in ampullary electroreceptors of catfish

General Papers

B. C. S. Viljoen and J. H. J. van Vuren 253 Regulation of the physical and biochemical composition of blood and seminal plasma by the blood–testis barrier in *Labeo ruddi* and *Labeo rosae* (Pisces: Cyprinidae)

Izuru Kakuta and Shiro Murachi	259	Renal response to hypoxia in carp, *Cyprinus carpio*: changes in glomerular filtration rate, urine and blood properties and plasma catecholamines of carp exposed to hypoxic conditions
M. Scott Herness	269	Aldosterone increases the amiloride-sensitivity of the rat gustatory neural response to NaCl
T. Pagés, V. I. Peinado and G. Viscor	275	Seasonal changes in hematology and blood chemistry of the freshwater turtle *Mauremys caspica leprosa*
David O. Norris, James A. Carr, Paul H. Desan, Tim K. Smock and Mark F. Norman	279	Monoamines and their metabolites in the amphibian (*Ambystoma tigrinum*) brain: quantitative changes during metamorphosis and captivity
D. A. Hudson	285	Neutral amino acid transport in an androgen-dependent epithelium
Oscar P. Chilson	291	Contrast in adenine uptake by chicken and rabbit erythrocytes *in vitro*
David J. Marshall and Christopher D. McQuaid	297	Relationship between heart rate and oxygen consumption in the intertidal limpets *Patella granularis* and *Siphonaria oculus*
A. Guillou, G. Choubert and J. de la Noüe	301	Absorption and blood clearance of labelled carotenoids ([^{14}C]astaxanthin, [^{3}H]canthaxanthin and [^{3}H]zeaxanthin) in mature female rainbow trout (*Oncorhynchus mykiss*)
Jaime Fábregas, Adolfo López, José Llovo and Angeles Muñoz	307	A comparative study of seafish erythrocytes and agglutinins from seaweeds
Yasuo Kizawa, Masakazu Sano, Ryoya Takahashi and Hajime Murakami	315	Immunochemical and immunohistochemical determination of ubiquitin in molluscan (*Mytilus edulis*) smooth muscle
A. S. van Jaarsveld, R. J. van Aarde, J. D. Skinner and V. van Wyk	319	Sex-specific androgen binding in spotted hyaena (*Crocuta crocuta*) plasma
Mark S. Peterson and Nancy Brown-Peterson	323	Growth under stressed conditions in juvenile channel catfish *Ictalurus punctatus* (Rafinesque) as measured by nucleic acids
I. Scott and P. R. Evans	329	The metabolic output of avian (*Sturnus vulgaris*, *Calidris alpina*) adipose tissue liver and skeletal muscle: implications for BMR/body mass relationships
V. Benno Meyer-Rochow, Ian Cook and Chris H. Hendy	333	How to obtain clues from the otoliths of an adult fish about the aquatic environment it has been in as a larva

COMPARATIVE NUTRITION PAPERS

J. Gordon Bell, James R. Dick, John R. Sargent and Alasdair H. McVicar	337	Dietary linoleic acid affects phospholipid fatty acid composition in heart and eicosanoid production by cardiomyocytes from Atlantic salmon (*Salmo salar*)
G. Di Bella and M. Saitta	343	Unsaponifiable matter of liver oil of intensively reared sea bass (*Dicentrarchus labrax*): sterols and aliphatic alcohols
Takaji Yajima and Takashi Sakata	353	Core and periphery concentrations of short-chain fatty acids in luminal contents of the rat colon
J. Blasco, J. Fernández and J. Gutiérrez	357	Variations in tissue reserves, plasma metabolites and pancreatic hormones during fasting in immature carp (*Cyprinus carpio*)
James H. Tidwell, Carl D. Webster and Julia A. Clark	365	Effects of feeding, starvation, and refeeding on the fatty acid composition of channel catfish, *Ictalurus punctatus*, tissues
Marit Espe, Herborg Haaland and Leif R. Njaa	369	Autolysed fish silage as a feed ingredient for Atlantic salmon (*Salmo salar*)

M. G. Jayaram and F. W. H. Beamish	373	Plasma metabolites of lake trout (*Salvelinus namaycush*) in relation to diet and storage conditions
L.-Z. Sun and A. Farmanfarmaian	381	Biphasic action of growth hormone on intestinal amino acid absorption in striped bass hybrids
Pascale Pracros, Christine Couranjou and Robert Moreau	391	Effects on growth and respiration due to the ingestion of the rapeseed meal glucosinolates in young larvae of *Tenebrio molitor*
Rakesh K. Srivastava and Joseph A. Brown	397	Assessment of egg quality in Atlantic salmon, *Salmo salar*, treated with testosterone—II. Amino acids
Georges Choubert, José-Carlos G. Milicua, Ramon Gomez Martinez, Sophie Sance, Hélène Petit, Geneviève Nègre-Sadargues, René Castillo and Jean-Paul Trilles	403	Distribution of canthaxanthin in immature rainbow trout *Oncorhynchus mykiss* serum
L. A. Da Silva, O. L. De Marcucci and A. Carmona	407	Adaptive changes in total pyruvate dehydrogenase activity in lipogenic tissues of rats fed high-sucrose or high-fat diets
Elton Pinto Colares, Ioni Gonçalves-Colares and Ary Domingos do Amaral	413	Blood parameters of the Amazonian manatee (*Trichechus inunguis*)—dietary variation
Pedro Iñarrea, Elena Villareal, Ignacio Moya, Pablo Aguirre and Jesus Palacios	417	Development of hepatic microsomal activity of 3-hydroxy-3-methylglutaryl-coenzyme A reductase and cholesterol 7α-hydroxylase in the young chick
	421	Book Reviews

Vol. 103*A*, *No.* 3

Mini Review

C. Swerup and B. Rydqvist	423	The abdominal stretch receptor organ of the crayfish

General Papers

Robert E. Thomas and Stanley D. Rice	433	Salinity tolerance of adult and juvenile red king crabs *Paralithodes camtschatica*
M. W. Musch, C. Bookstein, D. L. Arvans, E. J. Cragoe, Jr, M. C. Rao and E. B. Chang	439	Characterization of chicken intestinal brush border membrane Na/H exchange
Hal Braley and Trevor A. Anderson	445	Changes in blood metabolite concentrations in response to repeated capture, anaesthesia and blood sampling in the golden perch, *Macquaria ambigua*
G. Venturini, E. Cataldi, G. Marino, P. Pucci, L. Garibaldi, P. Bronzi and S. Cataudella	451	Serum ions concentration and ATPase activity in gills, kidney and oesophagus of European sea bass (*Dicentrarchus labrax*, Pisces, Perciformes) during acclimation trials to fresh water
A. Almendros and D. Porcel	455	Phosphatase activity in the hepatopancreas of *Helix aspersa*
Jan S. Wojtaszek	461	Seasonal changes of circulating blood parameters in the grass snake *Natrix natrix natrix* L.
S. Shpun, J. Hoffman and U. Katz	473	Anuran amphibia which are not acclimable to high salt, tolerate high plasma urea
H. Schiff and G. Di Stefano	479	Target localization in different luminous environments
Francisco Vargas-Albores, Antonia Guzmán and José Luis Ochoa	487	Size-dependent haemagglutinating activity in the haemolymph from sub-adult blue shrimp (*Penaeus stylirostris* Stimpson)

S. Lavin, R. Cuenca, I. Marco, R. Velarde and L. Viñas	493	Hematology and blood chemistry of the marsh harrier (*Circus aeruginosus*)
A. M. Coimbra, P. L. Fernandes, K. G. Ferreira and H. Gil Ferreira	497	Intracellular calcium in the cells of the outer mantle epithelium of *Anodonta cygnea*
Gerhard Rechkemmer	501	Effects of a low-sodium diet on electrolyte transport in the proximal and distal colon of the guinea pig (*Cavia porcellus*)
Klaus Anger and Martina Schuh	507	Bioenergetics of abbreviated larval development in the bromeliad crab, *Metopaulias depressus* (Decapoda: Grapsidae)
S. Benvenuti, P. Ioalè, A. Gagliardo and F. Bonadonna	519	Effects of zinc sulphate-induced anosmia on homing behaviour of pigeons
K. Gromysz-Kałkowska and L. Lechowski	527	Oxygen consumption in *Trigonotylus coelestialium* (Kirk.) (Heteroptera) during its life cycle
Robert A. B. Holland and Jillian F. Hallam	531	Carbonic anhydrase activity in blood of early sheep fetuses
L. Kőhidai, A. Kihara and G. Csaba	535	Correlation of insulin pretreatment and insulin binding of *Amoeba proteus*—a new technique for evaluation
R. T. Gemmell and C. Sernia	541	The transfer of thyroxine from the mother to the young of the marsupials, the bandicoot (*Isoodon macrourus*) and the possum (*Trichosurus vulpecula*)
G. K. Kulkarni and C. S. K. Anand	545	Functional significance of supraesophageal and subesophageal ganglia in oogenesis of the freshwater leech, *Hirudo birmanica* (Blanchard)

COMPARATIVE NUTRITION PAPERS

Mini Review

Carlo Pieri, Marco Falasca, Rina Recchioni, Fausto Moroni and Fiorella Marcheselli	551	Diet restriction: a tool to prolong the lifespan of experimental animals. Model and current hypothesis of action

General Papers

Hiroko Miyasaka and Hiroo Sanada	555	Alterations of cytoplasmic enzyme activities of liver in rats fed on diets containing orotic acid with dietary fibers
Thomas Carefoot, Barbara Taylor, Sabine Kalwa, George Somogyi and Barbara Hughes	559	Effect of dietary D-amino acids on growth, survival, ammonia excretion and specific dynamic action in the supralittoral isopod, *Ligia pallasii*
Hiro-omi Yokota, Hisae Mori and Mitsuhiro Furuse	565	Changes in body composition of germ-free and conventional chickens during starvation
Mitsuhiro Furuse, Atsushi Murai and Jun-ichi Okumura	569	Gut microflora can modify fatty acid composition in liver and egg yolk lipids of laying Japanese quail (*Coturnix coturnix japonica*)
L. G. Ross, R. W. McKinney, S. K. Cardwell, J. G. Fullarton, S. E. J. Roberts and B. Ross	573	The effects of dietary protein content, lipid content and ration level on oxygen consumption and specific dynamic action in *Oreochromis niloticus* L.
Eugene H. Studier and Steven H. Sevick	579	Live mass, water content, nitrogen and mineral levels in some insects from south-central lower Michigan
Christine Masterson and Bernard Fried	597	Chemoattraction and dietary preferences of *Biomphalaria glabrata* (Gastropoda: Planorbidae) for leaf lettuce, Tetramin and hen's egg yolk

Ei Sakaguchi and Akemi Nabata — 601 Comparison of fibre digestion and digesta retention time between nutrias (*Myocaster coypus*) and guinea-pigs (*Cavia porcellus*)

Norma De Vido de Mattio, María E. Paredi and Marcos Crupkin — 605 Post mortem changes in glycogen, ATP, hypoxanthine and 260/250 absorbance ratio in extracts of adductor muscles from *Aulacomya ater ater* (Molina) at different biological conditions

A. D. Gershanovich and I. V. Pototskij — 609 The peculiarities of nitrogen excretion in sturgeons (*Acipenser ruthenus*) (Pisces, Acipenseridae)—I. The influence of ration size

613 Book Reviews

Vol. 103*A*, *No.* 4

Review

D. Cremaschi and C. Porta — 619 Sodium salt neutral entry at the apical membrane of the gallbladder epithelium: comparing different species

Mini Reviews

Alfred Maier — 635 Sensory and motor innervation of bird intrafusal muscle fibers

J. M. Brown and C. Tickle — 641 Retinoids and the molecular basis of limb patterning

General Papers

Klavs Holtug, Gordon T. A. McEwan and Erik Skadhauge — 649 Effects of propionate on the acid microclimate of hen (*Gallus domesticus*) colonic mucosa

Charles R. Blem — 653 Lipid reserves and body composition in postreproductive anurans

E. Gardaire and J. Isaia — 657 Potassium balance in freshwater-adapted trout *Oncorhynchus mykiss*

Naoji Fujishiro and Hiroshi Kawata — 661 Tetanus responses under rapid bath solution change: electrotonic depolarization of transverse tubules may release Ca^{2+} from sarcoplasmic reticulum of *Rana japonica* skeletal muscle

Ruth M. Elsey, Ted Joanen, Larry McNease and Noel Kinler — 667 Growth rates and body condition factors *Alligator mississippiensis* in coastal Louisiana wetlands: a comparison of wild and farm-released juveniles

Hitoshi Yamashita, Noboru Sato, Mikio Yamamoto, Yuzo Sato, Kuniaki Nakanishi, Minoru Suzuki, Yoshiaki Habara and Hideki Ohno — 673 Insulin administration induces capillary growth in brown adipose tissue of heat-exposed rats

J. Ivanović, M. Janković-Hladni, S. Djordjević, J. Lazarević and S. Stamenović — 679 Metabolic strategies of *Morimus funereus* larvae during thermal stress

C. B. Gow, M. J. Silvapulle and G. P. M. Moore — 687 Epidermal growth factor alters the electrolyte profile of lactating ewes (*Ovis aries*)

S.-H. Zhang, D. P. Hennessy, P. D. Cranwell, D. E. Noonan and H. J. Francis — 695 Physiological responses to exercise and hypoglycaemia stress in pigs of differing adrenal responsiveness

Takashiro Higuchi — 705 Topography and distribution of motor neurons supplying uropod muscles of a crayfish

L. Scott Quackenbush — 711 Yolk synthesis in the marine shrimp, *Penaeus vannamei*

C. Tyler Burt and Robert A. Kleps	715	Apparent low free magnesium levels in blue crab vas deferens determined by ^{31}P NMR
Augusto Foà, Lucia Minutini and Augusto Innocenti	719	Melatonin: a coupling device between oscillators in the circadian system of the ruin lizard *Podarcis sicula*
Graham G. Thompson and Philip C. Withers	725	Osmoregulatory adjustments by three atherinids (*Leptatherina presbyteroides*; *Craterocephalus mugiloides*; *Leptatherina wallacei*) to a range of salinities
Kenneth B. Armitage and Carmen M. Salsbury	729	Factors affecting oxygen consumption in wild-caught yellow-bellied marmots (*Marmota flaviventris*)
Nicole Rideau and Jean Simon	739	Specificity of the permissive effect of D-glucose on insulin release in chicken pancreas
Zia J. Penefsky and Edward Diamond	747	A relationship between circulating natural glucocorticoids and the mechanical responses of the heart in atricial and precocial rodents
A. Almedros and D. Porcel	757	A structural and microanalytical (EDX) study of calcium granules in the hepatopancreas of *Helix aspersa*
G. P. Gusev, A. O. Sherstobitov and A. Yu. Bogdanova	763	Sodium transport in red blood cells of lamprey *Lampetra fluviatilis*
Y. Maeda, Y. Fukun A. Okamoto and T. Hashiguchi	767	The changes in body temperature, oxygen consumption, CO_2 production and muscle protein turnover rate by selection for body size in Japanese quail, *Coturnix coturnix japonica*

COMPARATIVE NUTRITION PAPERS

Mini Review

Marie France Sire and Jean-Marie Vernier	771	Intestinal absorption of protein in teleost fish

General Papers

T. D. Williams, K. Ghebremeskel, G. Williams and M. A. Crawford	783	Breeding and moulting fasts in macaroni penguins: do birds exhaust their fat reserves?
Ei Sakaguchi and Shojiro Ohmura	787	Fibre digestion and digesta retention time in guinea-pigs (*Cavia porcellus*), degus (*Octodon degus*) and leaf-eared mice (*Phyllotis darwini*)
Simon C. Langley, Gary J. Phillips, Susanne Tahedl and Frank J. Kelly	793	Dietary supplementation of vitamin E fails to prevent the development of hyperoxic lung injury in the premature guinea pig
S. C. Chakraborty, L. G. Ross and B. Ross	801	The effect of dietary protein level and ration level on excretion of ammonia in common carp, *Cyprinus carpio*
S. C. Chakraborty, L. G. Ross and B. Ross	809	Specific dynamic action and feeding metabolism in common carp, *Cyprinus carpio* L.
J. Salvadó and Ll. Arola	817	Effect of diet and essential amino acids gavage on young rat amino acid metabolism enzymes
Y. Kenan, M. Levinson, M. Pines and M. Naim	823	Differential post-receptor responses of adenylate cyclase in white and brown adipose tissue membranes of rats fed high-energy diets
Author checklist	827
